

# Evinta Solutions for GROUND HANDLERS

Evinta delivers a cloud-based, fully integrated suite tailored for airlines and ground handlers, enhancing efficiency across multiple airports.

## Departure Control System (DCS)

- ➔ **Cloud-Based:** Accessible globally, offering flexibility and efficiency.
- ➔ **Versatile Check-In:** Options for check-in via counter, web, kiosk, mobile, ensuring passenger convenience.
- ➔ **Universal Compatibility:** Works with CUTE and NON-CUTE airports, including SITA CUTE, ARINC MUSE, and more.
- ➔ **Operational Efficiency:** Handles multiple flights with ease and is customizable for any operational requirement.
- ➔ **Cost-Effective:** Fully hosted with IP-based messaging, minimizing expenses.
- ➔ **Advanced Features:** Comprehensive disruption handling for uninterrupted operations.

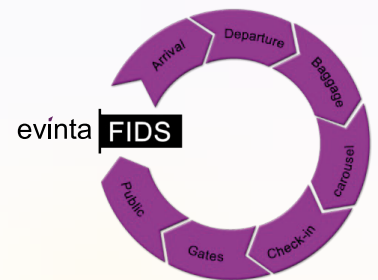

## Baggage Reconciliation System (BRS)

- ➔ **Integrated Baggage Handling:** Ensures accurate baggage tracking from check-in to retrieval.
- ➔ **Effortless Processing:** Efficient baggage management with simple scan-and-go operation.
- ➔ **Comprehensive Reporting:** Offers detailed insights into baggage movement and status.

## Flight Information Display System (FIDS)

- ➔ **Flexible Hosting:** Choose between Local or Hosted solutions, integrated with Evinta DCS.
- ➔ **Multilingual Support:** Accommodates diverse passenger demographics.
- ➔ **Hardware Agnostic:** Compatible with any display technology, ensuring seamless integration.
- ➔ **Customizable Displays:** Tailor screen layouts to meet customer needs, manageable from a central location.

## Weight & Balance System

- ➔ **Cloud-Based Planning:** Accessible remotely, adaptable for all flight types and multiple airports.
- ➔ **Integration Ready:** Seamlessly works with other DCS or third-party systems.
- ➔ **Visual Planning Tools:** Utilize simulated aircraft diagrams for precise load planning.
- ➔ **Customization:** Adapt the system to your operational needs through business rules.
- ➔ **Communication Enhanced:** Features a messenger module for instant staff coordination.
- ➔ **CLC Friendly:** Can work as a standalone system or as a CLC Operation.

## Why Choose Evinta?

- ➔ **Global Reach, Local Touch:** Our solutions are designed for global scalability and are adaptable to meet local requirements.
- ➔ **Comprehensive Support:** From baggage handling to flight planning, Evinta provides a unified solution to optimize your ground operations.
- ➔ **Future-Ready:** Leveraging the latest technology, Evinta prepares your operations for the demands of tomorrow, today.
